METHOD

Courses are given only in French. It's really the best way to learn a language! Our method is communicative, task based and active – we put the emphasis on speaking and listening but every lesson has a grammar point too!

Our programmes follow the Common European Framework and we offer programmes for levels A1-C2 and each level lasts 13 weeks.

The maximum number of students per class is 15.

Every week your trainer will ask you to take part in a role play or to prepare a specific task in order to check your progress. They will give you their feedback and ask you to self-assess your performance. The day before you leave there will be a formal test to check your final level.

After class we recommend you take the time to speak French with the other students even if you are not in the same group. It is an ideal opportunity to get to know each other and to practise your French.

Students will need a smart phone , tablet or computer as well as a Gmail address in order to access Google Drive. Teachers will share personalized study components and other necessary documents via Google Drive.

LIVING WITH A FRENCH FAMILY

80%

8/10 of our students choose to live with a host family in Rouen.

Your host family will help you get to know a lot about the French way of life and culture. Your family will provide you with a single room, two meals per day Monday - Friday, and three meals on weekends. Your bed linens will be provided and changed every week. The bathroom will be shared unless you have requested otherwise. It can take time to adapt to living with a family in another country, try to organise a routine with your hosts and be mindful of others regarding using the bathroom, washing machine, television and other household appliances and spaces .

A few simple rules will go a long way to making your stay enjoyable for both you and your host family:

- Most families have outdoor and indoor shoes; please remember to take off your outside shoes when you come inside.
- Do not to smoke indoors
- Follow the family routine for such things as meal times and bed times
- Please keep your room tidy and do not keep food in your bedroom
- Rinse the bath after use, leave the WC clean
- Be mindful of water and electricity use, don't be wasteful
- Please do not change the settings on things like heating, computer, tv
- After 10.30pm, please keep noise to a minimum.
- Let your host family know if you are going to be out late, miss a meal or if you want to invite a friend over

Idea: bring some photos of your home, your family or your recent travels; this could be a great way to start the conversation with your hosts. Many students bring a small gift from their home country for their host families.
